

D-Fi USB

CHAUVET DJ has developed a series of fixtures that include a standard USB connection. You can now wirelessly connect to all of them using the new D-Fi USB transceiver, which eliminates the need for any DMX cables. The USB transceiver is powered directly from the fixture. Control your USB fixtures using any of our wireless controllers, or from your smartphone with the [D-Fi Hub](#) and [FlareCON](#).

*PATENT PENDING

Highlights

- Finger-sized wireless D-Fi transceiver provides instant wireless communication
- Transfers DMX as well as master/slave signals between similar fixtures
- Eliminates the need for DMX cables
- Plugs directly into USB-compatible devices
- Works without the need of an external power supply
- Fully FCC/RTTE compliant

Plugs directly into USB-compatible devices
