

Hurricane Bubble Haze

Patent Pending

Hurricane Bubble Haze takes party atmospherics to new levels. It's a haze machine. It's a bubble machine. It's both at the same time! This multi-purpose atmospheric machine emits bubbles, haze, or even haze-filled bubbles, and its always-ready technology lets the unit run continuously to keep the party going. Hurricane Bubble Haze features a gravity-fed bubble reservoir that recirculates unused bubble fluid reducing fluid consumption. A built-in cleaning function increases machine longevity and reduces clogs. Hurricane Bubble Haze is compatible with [BJG](#) fluid.
