

# LEDZOOM1210

## 12x10W RGBW 3IN1 PARLED

LEDZOOM1210 represents a new generation within the field of RGBW LED PAR with ZOOM, designed for rental companies, fixed or mobile installations and as an excellent solution in any type of environment thanks to its compact design and versatility with its extraordinary 5° to 60° zoom. Versatile concept suitable for both stage and architectural lighting, in large and medium-sized environments. The peculiar monocular optical system with plano-convex terminations enhances the 12x10W RGBW / FullColor LED Source through a reflection technique that implies that the colors are pre-mixed in optical channels. Ideal for fantastic high definition beam effects or wide angle for high spread color flooding. Ideal for theaters, rental companies, events, concerts and fixed installations

### Parameters and technical information

LED	12pcs 4-in1 RGBW + 21pcs 3-in-1 RGB Background
Beam Angle	5°-60°
Lumen	1915lm
Rated Life (hours)	50000
Color Mixing	RGBW
Channel No.	6,10,14CH
Data Protocol	DMX512
Display Function	LCD Blue
DMX Input/output	3pin/5pin
Power Input/Output	European/American
Input Voltage Range	AC 100V-240V
Input Freq. Range	50HZ-60HZ
Max Power (100V)	127W
Connection No.	4pcs@110V 8pcs@240V

Cooling	Fan+Heat sink
Ambient Temp.	-20 - +45 °C
Max Humidity	75%
Dimensions	204 x 256 x 286 mm
Weight	4.1Kg
Housing Color	Black
IP Grade	IP20

### Accessories

C Clamp

Flightcase
