

SMARTB12IP

20W BATTERY POWERED ELLIPSODIAL LED

SMARTB12IP uses the most advanced 7-in-1 LED, which can easily modulate millions of colors, and its unique optical system makes all colors very uniform. It has a manual zoom from 4.5 to 45", IP65, intelligent anti-theft design. SMARTB12IP is an exquisite and compact device (only 1 kg), suitable for hotels, banquets, bars, indoor and outdoor exhibition venues, and rental uses.

Parameters and technical information

1x20W (RGBWAC UV)
