

SMARTPINSPOT20

20W RGB+LIME+CYAN+AMBER 6IN1 BATTERY POWERED WIRELESS LED

Battery operated PINSPOT luminaire, wireless LED DJ lights. Operating modes: Sound activation: the unit will be activated by sound signal. Static display: the unit will display the color statically. Auto mode: the unit will automatically follow different patterns. DMX control mode: this function will allow you to control the lighting with a standard DMX 512 controller. Battery powered: this function will allow you to control the lighting independently without any DMX cable. DMX mode: Operating through a DMX controller gives the user the freedom to create their own programs tailored to their individual needs. This function also allows you to use your fixtures as pattern changing lights.
