

# HALOBEAM300

## 300W LED MOVING HEAD BEAM WASH

The HALOBEAM300 is a Hybrid LED Moving Head that features a 300W, 9000K White LED and 16\*10W RGBW 4in1 CREE LEDs, with an average lifespan of 50,000 hours. It offers a 3° (Beam)/15°(Wash) beam angle and has electronic focus control. The moving head features 7 colors + white for color options, 8 fixed gobos + open in gobo wheel 1, and 7 rotating gobos + open in gobo wheel 2. It also has a 6-facet linear rotating prism and a 48-facet round rotating prism with overlapping capabilities. The HALOBEAM300 includes a frost filter and offers a strobe/shutter with a range of 0-30 flashes per second. The moving head has automatic correction and can rotate up to 540°/270° using a 3-phase motor, which ensures fast and smooth movement.

### Parameters and technical information

Light Source:	300W,9000K White LED 16*10W RGBW 4in1 CREE LEDs	Operating modes:	DMX, Auto, Sound, Master/Slave
LEDs average lifespan:	50,000hrs	DMX channels:	25/18 chs.
Beam Angle:	3°(Beam)/15°(Wash)	Display:	4-button LCD display
Focus:	Electronic	Power connector:	PowerCon In & Out
Colors:	7 colors + White	Signal connector:	3Pin & 5Pin XLR In & Out
Gobo wheel 1:	8 gobo + Open, fixed	Power input:	AC 100-240V
Gobo wheel 2:	7 gobo + Open, rotating	Dimensions (LxWxH):	320 x 225 x 560 mm
Prism 1:	6-facet linear, rotating	Weight:	16.3 kg
Prism 2:	48-facet round, rotating		
Prism overlapping:	Yes		
Frost filter:	Included		
Strobe/shutter:	0-30 flash/secnd		
Pan/Tilt:	540°/ 270°,automatic correction		
Pan/Tilt motor:	3-pharse motor,fast and smooth
