

PROBEAM2R

2R 132W BEAM MOVING HEAD

The PROBEAM2R is a powerful and widely used moving beam head in show lighting. It is powered by a 132W MSD 2R lamp which produces an extremely bright and narrow beam, making it ideal for use in TV studios, theaters, concerts, stages, clubs, events and more. The beam angle is adjustable between 0-3.8 degrees, and it has 12 colors plus white options, 4 fixed gobos and an open option, 8-facet rotating prism, frost filter for wash, electronic focus, 0-100% mechanical dimmer, 0-9 fps mechanical shutter/strobe, pan/tilt of 540°/250°, a touch LCD display with jog wheel, 14 DMX channels, and a dimension of 256 x 178 x 300mm with a weight of 13kg.
