

# HYBRID350CMY

## 350W HYBRID MOVING HEAD BEAM SPOT WASH 3IN1 WITH CMY

The HYBRID350CMY is a 350W white LED hybrid moving head that features a 8°-35° linear zoom beam angle, and a variety of color options including CMY and a color wheel with 7 colors plus white. It also has 7 gobos, a 5-facet circular prism that can rotate in both directions, and a frost filter for wash effects. The focus is motorized and it has an electronic strobe with a range of 1-25 fps. The dimmer is linear and goes from 0-100%, while the pan and tilt have a range of 540° and 270° respectively. The pan and tilt motor is a 3-phase high speed motor, and the display is a full color LCD. The moving head can be controlled through DMX, Auto, Sound, and Master/slave modes, and it has 20 DMX channels.
