

BEEZOOM740

280W RGB COMPACT LED WASH MOVING HEAD

The BEEZOOM740 is a versatile LED wash moving head with 7x40W RGBW LEDs that can create a stunning wash effect with vibrant and dynamic color mixing. With a zoom range of 4.5°-45°, it is ideal for large events, stages, and clubs. The control options include DMX512, Sound-activated, Master/slave, and Auto modes with 23/35/51 channel modes. The moving head also features a 0-100% linear dimmer and smooth pan and tilt movements (540°+16 bit fine pan and 270°+16 bit fine tilt). The LCD display provides easy navigation and control, while the fixture is compact and lightweight for indoor use.
